

## CMS Server

### Introduction

CMS Server is a Content Management System server that allows you to upload media files, scrolling tickers, RSS feeds or firmware to up to 1000 digital signage devices using a Web interface. You can also look up records and analysis of user and device activities.

### Key Features

- Connection with up to 1000 PN400 / PN300 / SQP133 / SQP110
- Web interface to remotely upload content, scrolling ticker, RSS feeds and schedule using Internet Explorer, Firefox, Google Chrome or Safari
- Remote device reboot and firmware upgrade
- Instant display of device status and information
- Support for Dynamic DNS
- Records and analysis of user and device activities
