

[FAQ]

Why does ASManager and ASWeb have different time formats such as different date format and 24H vs AM/PM?

Release Date: 11/3/2015

Applied to

ASManager v4.3

Question

Why does ASManager and ASWeb have different time formats such as different date format and 24H vs AM/PM?

Answer

This is a Windows region and time setting related issue. Solution to fixing this time format issue as below:

1. Go to Control Center > Clock, Language, and Region

System and Security
Review your computer's status
Back up your computer
Find and fix problems

Network and Internet
View network status and tasks
Choose homegroup and sharing options

Hardware and Sound
View devices and printers
Add a device

Programs
Uninstall a program

User Accounts and Family Safety
Add or remove user accounts
Set up parental controls for any user

Appearance and Personalization
Change the theme
Change desktop background
Adjust screen resolution

Clock, Language, and Region
Change keyboards or other input methods
Change display language

Ease of Access
Let Windows suggest settings
Optimize visual display

2. Click on Region

Date and Time

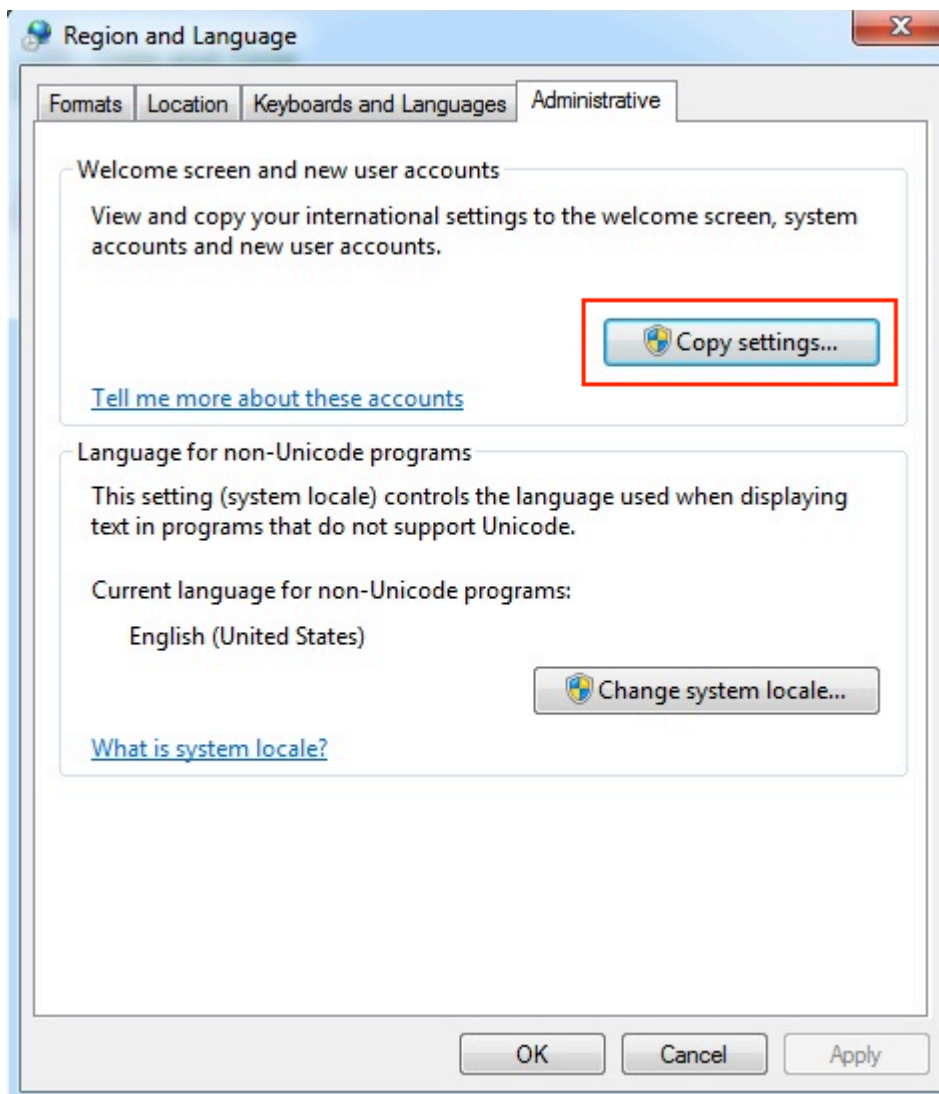

[Set the time and date](#) | [Change the time zone](#) | [Add clocks for different time zones](#) | [Add the Clock gadget to the desktop](#)

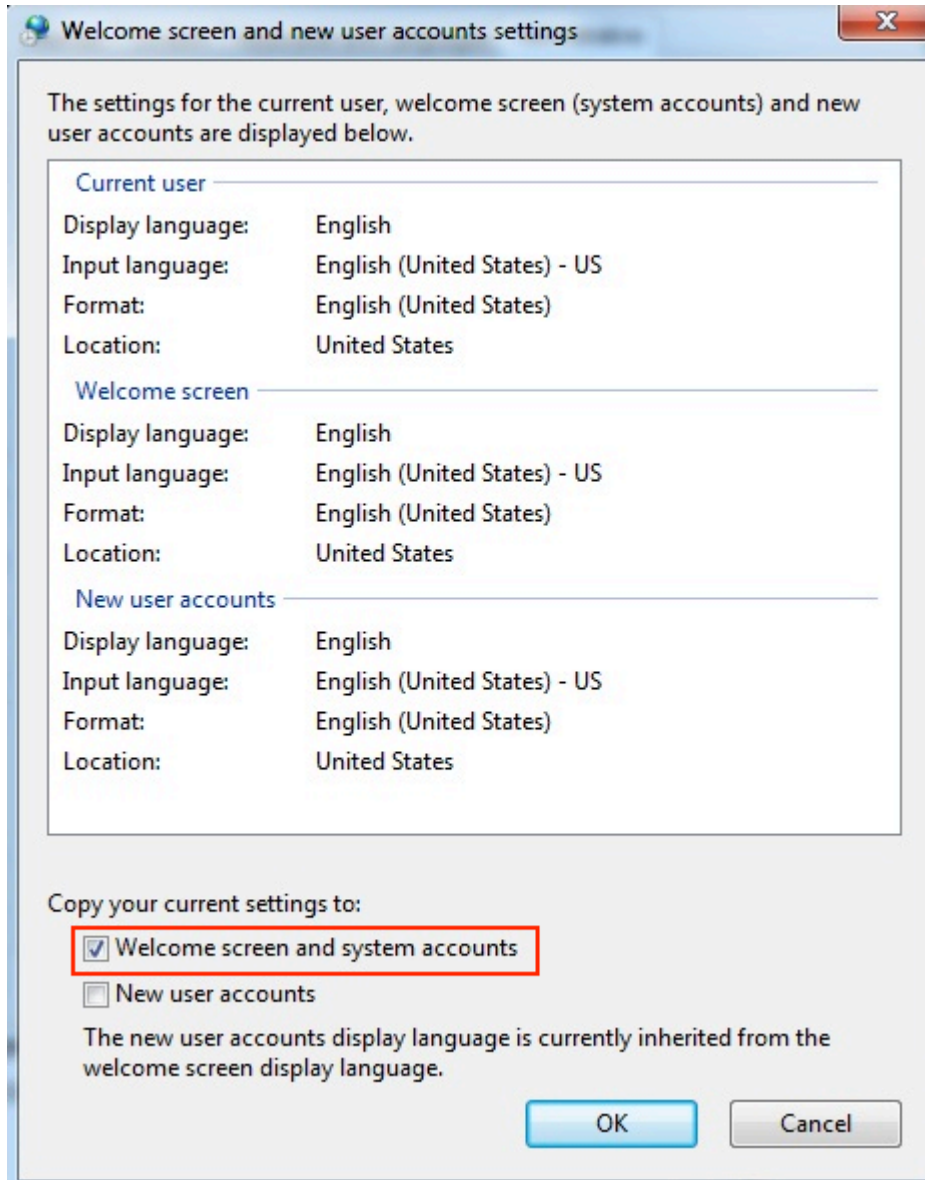

Region and Language

[Install or uninstall display languages](#) | [Change display language](#) | [Change location](#) | [Change the date, time, or number format](#) | [Change keyboards or other input methods](#)

3. Click on Administrative > Copy Settings

4. Tick the "Welcome screen and system accounts" box and the time format will be corrected
