Why GV-Hybrid LPR Camera 10R disconnect for a period of time?

Release Date: 5/31/2015

Applied to

GV-Hybrid LPR Camera 10R

Question

Why GV-Hybrid LPR Camera 10R disconnect for a period of time?

Answer

GV-Hybrid LPR Camera 10R have to use POE GV PA481 as POE power supply for 10 M with Cat 5 cable, if your connection over 10 M, the connection signal is not stable. Please make sure your Cat5 connection from GV LPR cam to GV PA481 within 10 M.
