

[FAQ]

SNVR1600 can login outside Center V2 schedule time

Release Date: 5/11/2016

Applied to

GV-Center V2, GV-SNVR

Question

It appears that SNVR1600 is not working properly with Center v2 schedule option. When we place the account to not login at certain time but it will still login?

Answer

The Center V2 schedule time only sends notification when user login outside of the schedule period, it does not restrict user to login Center V2. You may need to setup Center V2 connection schedule on SNVR itself to restrict user to login Center V2.
