

## [FAQ]

# Why EBL2100 & EFD2100 have different FPS spec?

Release Date: 1/6/2016

### Applied to

EBL2100 & EFD2100

### Question

Why EBL2100 & EFD2100 have different FPS spec?

### Answer

This is due to newer DDR parts being used in EDR2100 since it is released sometime after EBL2100. All GV-Target cameras will have 30fps in the future.
