[FAQ]

How to download the video from the Micro SD card in the GV-IP camera?

Article ID: GV3-13-09-27-k Release Date: 09/27/2013

Applied to

GV-IPCam H.264 Series V1.11 and later

Question

How to download the video from the Micro SD card in the GV-IP camera?

Answer

When connections of GV-IP Cameras to the GV-System are lost, the recordings are automatically saved to the memory cards inserted in the GV-IP Cameras. To automatically synchronize and download the recordings from the SD cards to a local folder, install and execute the **GV-SDCardSync Utility** program.

Note:

- GV-SDSyncCard Utility is only supported in GV-System V8.5.4 or later and in GV-IPCam H.264 V1.11 or later.
- 2. Keep the GV-SDCardSync Utility running in the background to automatically synchronize and download videos.

Installing the GV-SDCardSync Utility

1. Download the GV-SD Card Sync Utility program from

http://54.200.75.24/english/EncodeUrl3.aspx?source=http://dlcdn.geovision.com.tw/Softw are/DVD/FreeAP/GvSDCardSync.zip

2. Execute the **GV-SDCard Sync Utility** program. The Setting window pops up automatically upon first execution. Otherwise, click the **Setting** button **Setting**.

3. To configure synchronization, network and startup settings, see the steps below.

Settings	
Synchronization Storage	
Synchronization Synchronize automatically at an interval (minutes) Synchronize automatically at V Download audio files	1
Network Max download speed of each device (KB/sec)	0
General Start up automatically at Windows login	
	OK Cancel

[Synchronization]

 Synchronize automatically at an interval: Automatically synchronize videos from SD cards to a local folder at the specified interval.

- Synchronize automatically at: Automatically synchronize videos from SD cards to a local folder at the specified time.
- Download Audio Files: You may choose to download audio files along with the video files. This option is enabled by default.

[Network]

Max. download speed of each device (Kb/sec): To make sure the bandwidth is not completely taken up while downloading files from the memory card, specify a maximum download speed. If you do not want to set a bandwidth limit, type 0.

[General]

- Start up automatically at Windows login: GV-SDSync Utility launches automatically when Windows starts up.
- By default, downloads are saved to :\GvSDCardSync and are not recycled automatically. To configure the storage and recycling settings, select the Storage tab on the Setting window. This page appears.

Settings			
Synchronization Storage			
Recycle			
Recycle when the storage space is less than (GB)		1	
Keep the downloaded files for (Day	s)		1
Storage Location	D:\GvSDCardSync		
		ОК	Cancel

[Recycle]

- Recycle when the storage space is less than (GB): Specify a minimum free space of your local storage for file recycling.
- Keep the downloaded files for (Days): Specify the number of days to keep the download files at the local hard drive.

[Storage Location]

To configure the storage path, click the button next to the location field and specify a storage location.

5. Click **OK** to save the configuration or exit the Setting window.
