Question

Does GV-Eye mobile app support GV-SD200 speed dome camera?

Answer

GV-SD200 is GeoVision's first generic ONVIF protocol camera. Currently GV-Eye mobile app can only support GeoVision protocol on IP cameras and software.

If you like to see GV-SD200 video using GV-Eye mobile app, you can connect the camera to GV-Recording Server (V1.22 or later) or GV-VMS and then use GV-Eye to establish connection.
