Article ID: GV2-13-05-08-k-1

Release Date: 05/08/2013

Applied to

GV-DVR/NVR

Question

How many channels does a GV-DVR/NVR support for remote viewing?

Answer

Up to 200 channels can be accessed for remote viewing simultaneously. By default, only 120 channels are enabled for remote viewing. If you want to allow more channels for remote viewing, you need to click the **Network** button, select the **WebCam Server** option and select the **Video** tab to edit the **Max.Channel(s)** field.
