

[FAQ]

How to test 3rd party IP camera's ONVIF compatibility with GV-VMS?

Release Date: 1/6/2016

Applied to

GV-VMS or GV-NVR

Question

How to test 3rd party IP camera's ONVIF compatibility with GV-VMS?

Answer

User can use ONVIF Device Manager to test for the IP Camera's ONVIF compatibility. If the IP Camera is tested to be ONVIF compatible then it should work with GV-VMS. Download link and guides to using the ONVIF Device Manager below:

Installation and User Guide:
