

[FAQ]

How can I storage duplicate video image to both GV-VMS system & backup storage?

Release Date: 3/31/2015

Applied to

GV-VMS v14.1

GV-Storage v2

Question

How can I storage duplicate video image to both GV-VMS system & backup storage?

Answer

For VMS v14.1, you can use following solution:

- Redundant Server or Failover Server for backup purpose
- Storage V2 with Raid configured in order to prevent data lost
