

“GVLicensetool.exe” Detected by Kaspersky Antivirus

Article ID: GV1-15-06-17

Release Date: 6/17/2015

Applied to

GV-VMS V14.10

GV-Edge Recording Manager V1.0

GV-Control Center V3.2

Symptom

In some rare cases, the **GVLicensetool.exe** file will be detected as a virus by antivirus software Kaspersky.

Resolution

GVLicensetool.exe is a safe file. GeoVision has conducted a test on 6 antivirus software AVG, AVvast, Norton, PC-cilin, ESET NOD32 and Kaspersky. Only Kaspersky will recognize the file as Trojan. However, to avoid the wrong detection, we have removed the file from the following software and version:

GV-VMS V14.10.10

GV-Edge Recording Manager V1.1

GV-Control Center V3.3

If such wrong detection prevails, you may also exclude the file or GV-Software folder from your antivirus scans.
