[FAQ]
Why VMS v14.1 E-Map doesn't show any camera within layout design? It only shows the E-Map image (blueprint) but nothing else

Release Date: 7/09/2015

Applied to:

VMS v14.1

Question:

Why VMS v14.1 E-Map doesn't show nay camera within layout design? It only show the E-Map iamge but nothing else.

Answer:

If there are no cameras "actually" connected to VMS, no matter how many cameras icons you have added to the blueprint, it will show nothing when you drag the saved –E-Map and drop to VMS layout content list.
